- 2. East Germany is at present short of 15,000 tons of copper scrap. In addition, 1,800 tons of sinc which was to be supplied by Poland has not arrived and the Ministry for Heavy Industry 603 to know whether or not the shipment will materialize. Similarly, nickel and supper shipments expected from Poland have not materialized.
- 3. Willi Salser, Technical Director of the Main Administration for the Iron Industry in the Heavy Industry Ministry, has been transferred to Efelotehi Dechlen, Freital, as Technical Head, effective 1 August 1955. Retermind (fnu), chief of the Standardination Commission for Metallurgy located in Hennigsderf, has also been transferred to Dechlen. Retermind, a former metal tester for the German Air Force, is considered to be one of the outstanding figures in the metallurgical field in East Germany. It is assumed in the Ministry for Heavy Industry that the Dechlen plant, which is the only high-grade steel (Edelstahl) plant in East Germany, will be engaged in the production of material for the aircraft industry.
- 4. Minister for Heavy in the Solly on has declined to have the employees of his Ministry sign the places not to visit West Berlin since so many of the Ministry's officials must travel to West Berlin and West Germany for business purposes.
- 5. The 1935 appropriations for the Research and Development Department in the Ministry for Houvy Industry have been increased to $120,000,000~{\rm DMs.}^{\perp}$
